

EMOTIONS

“Set of puzzles – the 10 emotions”

Ref. 20544

FOR EDUCATIONAL PURPOSES

SET OF PUZZLES OF THE 10 EMOTIONS

Ref. 20544

CONTENTS:

The game comprises 10 puzzles and 10 model cards made from thick, strong, high quality cardboard.

DESCRIPTION OF THE CONTENTS

- 10 large puzzles showing photos of children and adults experiencing different emotions. The puzzles are progressive with 3, 4 and 6 pieces. The back of each puzzle is in a different colour to make it easy to recognise and group the pieces of the same puzzle. Puzzle dimensions: 15.6 x 15.6 cm.
- 10 model cards: one side features the same images as the puzzles of each emotion and the other side contains an icon representing that emotion. Dimensions of the cards: 5.8 x 5.8 cm.
- The 10 emotions represented are:
 1. Happiness
 2. Self-confidence
 3. Admiration
 4. Curiosity
 5. Surprise
 6. Anger
 7. Disgust
 8. Sadness
 9. Fear
 10. Guilt

RECOMMENDED AGES:

2 – 6 years old.

We recommend that children aged 2 and 3 work with an adult who can help them to put the puzzles together. Children aged 5 to 6 can work more independently, starting with the puzzles with fewer pieces.

EDUCATIONAL OBJECTIVES:

- To develop observational skills.
- To improve psychomotor coordination and manual skills by handling the pieces and fitting them together correctly.
- To develop and enlarge basic vocabulary relating to the images on the puzzles.

METHOD OF PLAY AND ACTIVITIES:

1. Choose the model card of the emotion whose puzzle you are going to put together.
2. Group all the pieces of that puzzle together. You can easily identify them as each puzzle has a different colour on the back.
3. Once all the pieces have been grouped, put together the puzzle using the model card as a guide.
