

# 141142

---

The VSA120S is a plug & play 12" Stereo speaker set built into a strong ABS housing, consisting of a powerful 12" speaker with a built-in powerful stereo amplifier paired up with a 12" passive one. The active model houses the amplifier which has a built-in USB player with soft touch buttons and BT wireless technology to stream your music wirelessly from your smartphone or tablet. Create a real stereo set up with the unique dual amplifier system, just connect your microphone, your mixer or your audio source to the active speaker and this one sends the stereo signal with only one cable to the passive speaker. Ideal for mobile use thanks to the built-in handle and wheels.
