Features of use:

TERMA Inclusive cubes make it possible to integrate people with different levels of ability in the playground. The device can be used by a person without disabilities and people in a wheelchair or with intellectual disabilities or vision problems. The device allows children to play with their peers, siblings, parent or guardian. The device allows to have fun with a form of therapy at the same time, depending on the selected graphics and, therefore, the level of difficulty.

The device enables contact with a disabled person while having fun together. It has no barriers to access, both physical and cognitive.

The project fits into the assumptions of universal design, available to all potential users.

TERMA Inclusive cubes visually refer to the style of playground equipment, at the same time they are attractive in design.
